BACKGROUND

WHY ARE WE IMPLEMENTING SAP Ariba QUALITY NOTIFICATION?

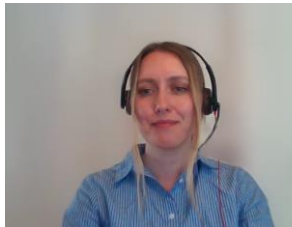

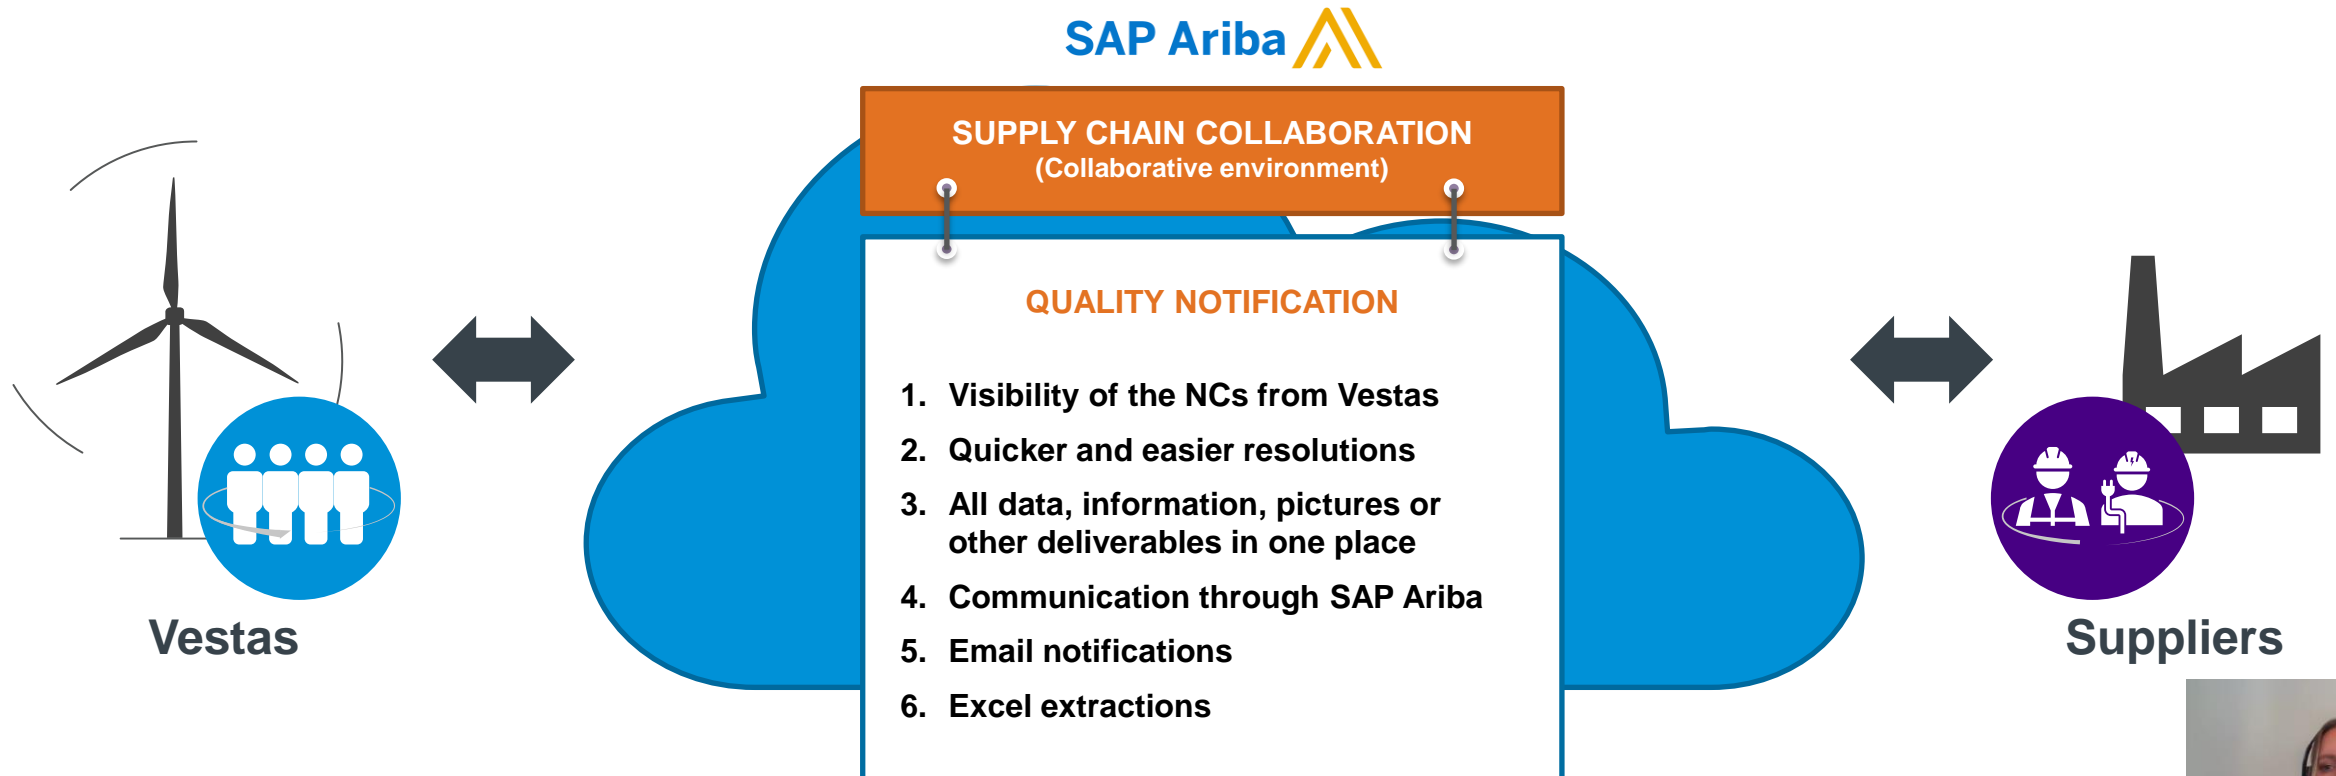

SAP ARIBA IMPLEMENTATION MULTIPLE MODULES

Vestas is implementing SAP Ariba to collect supplier interactions in one joint platform

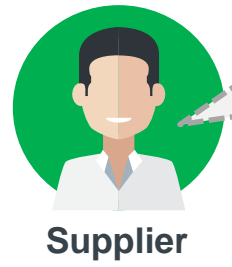

SUPPLY CHAIN COLLABORATION MODULE Quality Notification

Multiple opportunities to collaborate and connect towards the Non-Conformances (NCs)

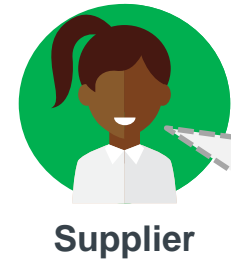

PROOF OF CONCEPT Testing Module in 2022

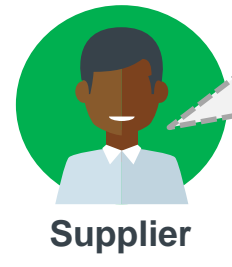

Suppliers were willing to work with the Quality Notification Module

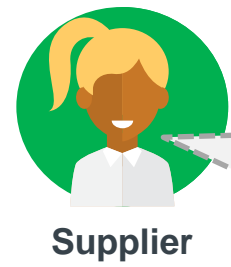

"Faster way of answering the notifications and avoiding a big number of emails."

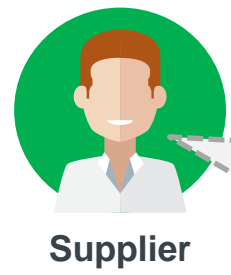

"Greater visibility of the NCs from a case handler point of view"

"Good to have all the information regarding the claim in one place"

"There is a greater visibility of the NCs. The status for the NCs handled is easy to check."

"Easy to work with the module Quality Notification."
